

KEENCUT

THE WORLD'S FINEST CUTTING MACHINES

OVAL / CIRCLE MATCUTTER

OVAL 6

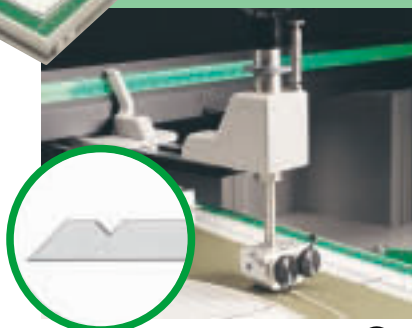

The Oval 6 is a remarkable oval/circle machine so versatile and adaptable that no framer need ever buy another one. Supremely easy to adjust and light to operate the Oval 6 will cut ovals or circles from 2cm (0.8") up to 65cm (25") long, with or without a bevel, fast, crisp and clean every time. The exceptionally large 20cm (8") maximum difference between length and width offers a range of ovals and creativity not possible on machines limited to a 15cm (6") differential or less.

Add the optional Craftsman tool set and the Oval 6 transforms to become the most versatile oval/circle cutting and mat decorating machine in the world. Add the optional Maxi turntable and the Oval 6 will create, cut and decorate ovals and circles from 2cm (0.8") to 80cm (32"). Oval 6 is in a class of its own.

New styles and techniques in mat decoration will develop in the future. The quick change tool system of the Oval 6 is designed to expand and keep pace with the new demands making it the only machine the framer will ever need.

Efficiently engineered for volume production with Keencut flair for simplicity and reliability Oval 6 is outstanding value for money. Whether in standard form or fully equipped, only with Keencut products does the framer get much more machine for less money.

EXTRA CARE

Every Oval 6 component is carefully inspected at all stages of manufacture and final assembly.

EXTRA CERTAINTY

Each individual machine is subjected to full test cutting of complete mats to ensure accuracy and performance.

EXTRA CONFIDENCE

The final test mat is marked and included with the machine. The serial number of the machine is recorded with the technicians code.

EXTRAORDINARY

Only when all criteria have been satisfied will the cutter be prepared for safe shipping, sealed in heavy duty heatshrink PVC and packed.
